Encourage your child's toothbrushing and

Write To The Tooth Fairy

National Smile Month is here and this year the Oral Health Foundation has recruited a celebrity to spread the word about the importance of oral care. The Tooth Fairy herself is asking children under the age of 12 to send her a letter telling her how well they are taking care of their teeth. In return she will send a thank you reply and reward. The most creative letters will be published on www.dentalhealth.org/national-smile-month You could maybe even mention your favourite dentist! Send your letter to:-

Tooth Fairy, Smile House, 2 East Union Street, Rugby, Warwickshire, CV22 6AJ

Smile Success

It was lovely to see so many happy faces at our Digital Smile Day last month, each one super-excited to start their journey towards their new, confident smile. Dan and Amanda scanned an impressive 13 patients in one day. That's a lot of teeth!

NHS Payments

Just a reminder that **NHS Band 2 treatment (£47)** should be paid for at the time of booking and not once the treatment has been completed. During your assessment your dentist will discuss your treatment plan so you can book and pay for your planned treatment at Reception before leaving. For **band 3 treatments (£203)** you are able to pay in instalments.

In the Spotlight

Jade is a vital part of the clinical implant team.

She is currently studying for a NEBDN Dental Implant Nursing qualification to further develop her support to our special-interest implant dentist Will Hodgson. Jade has also recently qualified as a Fluoride Nurse.

"There are lots of professional development opportunities available to Dental Nurses, and whilst it is tricky fitting study around work, I know it will be worth expanding my skill-sets in the long-run". Jade is instantly recognisable by her mischievous smile, but don't be fooled, get her in an Escape Room and she turns into a fierce competitor.

To thank us for all our hard work over the last financial year, Dan locked us up and threw away the key. Fortunately, most of us made it out in time for a few cocktails.

New Plan MEMBERS

For our former NHS patients that have recently signed up to plan, we will be in touch to arrange your first private exam and hygiene appointments which will be due approximately six months from your last NHS treatment.

Up the Town

The town is still buzzing from the excitement of **Wrexham Football Club** promotion to the EFL. We have the pleasure to treat a number of staff and players from both the Women's and Men's teams and are extremely proud of their achievements and the positive impact their success has had on our local community and businesses.
