Pancake Day - 1 March

Give your pancakes a twist as well as a flip this pancake day with tasty toppings that won't take a toll on your teeth and gums. Fresh fruit, natural Greek yoghurt, cacao or peanut butter are delicious alternatives to acidic lemon and sugar-loaded honey, syrup and chocolate spread.

In the Spotlight

Whilst Ciara Connolly is enjoying a break from dentistry to spend special time with her beautiful new family, Sophie Diss will be looking after her patients. Sophie is a recently qualified dentist from Leeds University so brings a fresh perspective to the team.

"Working in such a progressive practice allows me to develop my knowledge. I feel privileged to have direct access to the latest technologies and most reputable professionals right here at Ruabon Road."

Going Green

We are very proud to have been selected to participate in Public Health Wales' Greener Primary Care pilot scheme to take positive, practical steps to be a more environmentally sustainable operation and play our part in the globally responsible Wales vision.

green impact

Congrats!

Last year we promised to give you an update on our trainees progress, and already, in just twelve months Teleri has managed to successfully complete her Dental Nursing Diploma and is now a qualified Dental Nurse.

Check-Ups

Our recall system is working really well so thank you to those of you that have so far accepted our invitation to book and completed online forms. We have welcomed back more than half of our 11,000 NHS patients, including all children for their routine check-ups, since the outbreak of the pandemic. If you have not yet been recalled then rest assured we will be in touch soon. Keep checking your inbox and spam and make sure you let us know of any changes to your contact details.

We have welcomed back more than half of our 11,000 NHS patients.

Our audio system calling patients to surgery has been replaced by a patient-friendly visual service. The on-screen call system not only benefits our hearing-impaired patients, it creates a more relaxing atmosphere in the waiting room.
