JAN 2021

All New News!

Our first newsletter of 2021

It hasn't quite been the liberating start to 2021 we'd dreamed of as we continue life in lockdown, but this spike in Wrexham hasn't taken us by surprise. We were fully prepared for a surge in covid cases and have provisions in place to continue dentistry whilst protecting our staff and patients.

In the Spotlight

Another new addition to the RRDP family is **Dr. Anwen Hooson**. Anwen qualified from Manchester University in 2014 and worked in a practice in Mold for 5 years before leaving to have her baby daughter, who is now 9 months old. 'Saying goodbye to my little girl on my first day back at work was difficult, but the staff here made me feel so comfortable and welcome, I soon realised how much I had missed being in surgery. Friends and family have questioned why I have chosen to return during such a challenging time but dentistry is something that I am passionate about and I am proud to provide such an invaluable service to the NHS'. **And we are proud to have you in our team, Anwen.**

New You

We are all struggling to feel good about ourselves at the moment and to find something to look forward to, so now could be the perfect time to give some self-love by improving your best feature, your smile. Whether you are considering implants, clear aligners, whitening or any of our smile-makeover treatments make the most of this 'down-time' and book a video consultation with our expert dentists to find out how we can improve your smile, so when we are finally able to remove our masks in public you will have an even bigger reason to flash your teeth!

New Goals

Keeping a healthy body and mind is so important to be able to cope with the daily challenges that face us, so our team has set their own individual goals with an element of healthy competition to stay motivated and positive.

Nurses **Rachel** and **Emily T** have challenged each other to a couch to 5k in aid of Cancer Research whilst **Dentist Sam** and his nurse **Emily H** have synchronised their sports tracker apps as Emily aims to walk 100 miles in the month of January to raise funds for Nightingale House.

Super Fans

As part of our commitment to treat as many of our patients as possible during Amber, we have invested in fitting our surgeries with the latest high-powered extraction fans. The fans reduce decontamination time, which means we can now see more patients in a day.

Plans to refresh Treatment Room 2 at the end of 2020 were already in place before the outbreak of covid, so we decided to use the opportunity to install additional, anti-viral features.

The refurbished surgery now has contoured worktops to prevent any trapped particles, wipeable storage units and easy-clean flooring. Other state-of-the-art equipment includes enhanced lighting, a plasma screen to show patients photographs and scans and a new comfortable treatment chair to relax in.

New Look

New Starters

New recruits **Nicola**, **Teleri** and **Courtney** are being put through their paces this month as they take their first steps in to the world of dental nursing. They will follow a rigorous programme of in-surgery practical training and equipment tests as well as on-line learning and continual assessments. **We will keep you posted of their progress as they work towards their Dental Nursing Diplomas.**
