**AWARD
2022**

Our first newsletter of 2023 and we have new arrivals, welcome returns and more exciting plans on the horizon.

BABY TALK

Anwen's patients will be delighted to hear that her beautiful baby girl arrived on 2nd January. Cadi has visited the practice for cuddles and superstar Anwen has already completed a full day's Smilealign clinic, though she won't be returning for routine dentistry until September. Lead Nurse Andrea has returned from her maternity leave this month giving baby Noah extra special Nana time.

In the Spotlight

Introducing our fourth member of the Dental Therapy and Hygiene team, joining us two days a week.

Vara qualified as a dentist in Bangalore in 2009. She relocated to the Northwest ten years ago and has since registered as a Dental Therapist carrying out fillings, periodontal and hygiene treatments. "I am getting familiar with the fast pace of Ruabon Road. I enjoy working within such competent team and feel my experience at Ruabon Road will be an asset in my pursuit to practice as a dentist in UK".

Ticking the right boxes

Always check before you sign and submit your Patient Declaration Form. If you qualify for free NHS treatment, you must specify the type benefit you receive for every new course of treatment, otherwise you will be required to pay for your treatment and re-claim it yourself from NHS Wales.

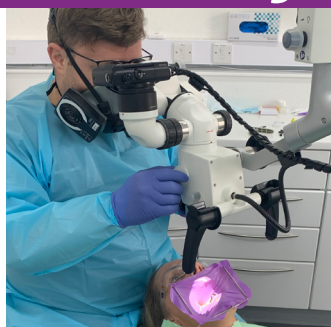

We are excited to announce that we are hosting our **Invisalign Special Offer Open Day on Saturday 15th April**

It will be an opportunity to experience first-hand the remarkable benefits of Invisalign technology. This is a limited offer and treatment places are subject to availability. To express your interest, contact us on info@wrexhamdentist.co.uk

Special-Interest Dentistry

Thanks to the growing popularity of referrals for our special-interest dentists, we have added a new section to our website showcasing the advanced treatments we offer at Ruabon Road. Implants, Endodontics, Surgical extractions and CBCT scanning all feature in www.wrexhamdentist.co.uk/services/advanced-dentistry.php showing what a talented team we have under one roof.

Paperless practice

In our endeavor to be a carbon-neutral practice we now send our payment and outstanding treatment reminders by email where possible rather than by traditional post or carrier pigeon. If you are concerned that an email you receive may not be genuine then please feel free to call and check with our Reception team.
